EXAMINER'S REASON FOR ALLOWANCE

BACKGROUND

1. This action is responsive to the communications filed on 5/14/2007.
2. Claims 1-8 and 28 are allowed in this case. Claim 1 is in independent form.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance, however, it should be noted that not all reasons for allowance are expressed:

The major difference(s) in the claims not found in the prior art of record are:

...making less frequently-used commands more salient and more frequently-used commands less salient comprising...comparing the measured evidentiary value to a programmed value; if the measured evidentiary value is less than the programmed value, decreasing a salience of the command; and if the measured evidentiary value is equal to or greater than the programmed value, maintaining the salience of the command unchanged or increasing the salience of the command.

In the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to *make less frequently-used commands more salient and more frequently-used commands less salient*, in the manner claimed. The closest prior art is *Blades et al.* (US Pat. No. 5,420,975). *Blades et al.* deals with the displaying of a user selectable menu option, which in response to each selection by a user, is automatically altered in response to a state of an associated counter.

However, *Blades et al.* expresses the intention to delete or dim infrequently selected menu options for the purpose of increasing the salience of frequently chosen options, which teaches away from making *less frequently-used commands more salient and more frequently-used commands less salient*, an important requirement of the claimed invention.

Art Unit: 2178

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
